

Meghraj Gupta

Full Stack Java Developer

✉ meghrajgupta58@gmail.com 🌐 [Portfolio](#) 🔗 [LinkedIn](#) 🐙 [GitHub](#) ☎ 7295001179

Full Stack Java Developer with 3+ years of experience building secure enterprise applications using Java, Spring Boot, Angular, and PostgreSQL. Strong in REST APIs, microservices architecture, and encryption workflows.

Technical Skills

Languages: Java, SQL, JavaScript

Frameworks: Spring Boot, Spring Security, Microservices, Angular, React.js

Web Technologies: HTML5, CSS3

Tools: GitHub, VS Code, Eclipse, IntelliJ, AWS, Putty, WinSCP

Databases: Oracle 11G, PostgreSQL

Professional Experience

Full Stack Developer

01/2023 – Present

Conacent Consulting Pvt. Ltd., Kolkata

- Developed and maintained enterprise applications using Java, Spring Boot, Angular, React.js, Oracle, and PostgreSQL.
- Designed and implemented RESTful APIs and microservices architecture for scalable backend systems.
- Developed Angular applications using Angular CLI, data binding, validations, reusable services, and component-based architecture, including a real-time English–Hindi translator.
- Designed secure backend services with PGP encryption, SMTP, Cron automation, and HTTPS (CRT/JKS).
- Integrated SFTP pipelines and WhatsApp messaging for automated client communication and notifications.

Key Projects:

IBS (Integrated Business System)

01/2024 – Present

- Designed responsive enterprise UI modules using Angular and HTML/CSS.
- Integrated REST APIs for document management, PDF downloads, and transactional workflows.
- Implemented form validation, role-based UI controls, and enhanced user experience.

Monster Bill (P2P)

02/2024 – 01/2025

- Optimized Procure-to-Pay workflows and backend business logic using Java and Spring Boot.
- Developed analytics dashboards for supplier-to-payment lifecycle monitoring.

Service Book

04/2023 – 07/2023

- Built a full-stack service management system using Java, Spring Boot, PostgreSQL, and Angular.
- Implemented approval workflows with role-based authorization and multi-step validation.
- Developed dynamic report generation modules to produce overall project summaries, service analytics, and downloadable reports for business users.
- Enabled compressed file uploads and deployed applications via SFTP servers.

EcoNet Wireless Limited

08/2023 – 12/2023

- Integrated 4 banks (3 via SFTP, 1 via REST), automating 95% of data transfer for reconciliation operations.
- Reduced manual payment file preparation time by 90% using MT101/Omnipus auto-generation modules.
- Processed 10,000+ MT940 records monthly using a custom Java program integrated with Oracle for automated Bank Reconciliation (BRS).

Income Tax System

11/2023 – 01/2024

- Developed secure REST APIs using Spring Boot and Oracle.
- Integrated WhatsApp notification services for automated user alerts.

Education

M.Tech Computer Science — Budge Budge Institute Of Technology, Kolkata

2022–2024

CGPA: 7.84/10

B.Tech Computer Science — Budge Budge Institute Of Technology, Kolkata

2018–2022

CGPA: 8.39/10

Certification

Full Stack Java — Naresh IT Hyderabad
